## Notes:

\* For each unaffected nuclear unit in operation, maintain at least one shift foreman, one control room operator and one auxiliary operator except that units sharing a control room may share a shift foreman if all functions are covered.

\*\* May be provided by shift personnel assigned other functions.

\*\*\* Overall direction of facility response to be assumed by EOF director when all centers are fully manned. Director of minute-to-minute facility operations remains with senior manager in technical support center or control room.

\*\*\*\* May be performed by engineering aide to shift supervisor.
