NOTIFICATION OF CHANGE IN OPERATOR STATUS

Gentlemen:

Mr. Michael K. Amato currently holds Reactor Operator License No. OP-20861, Docket No. 55-21383. Mr. Amato has been removed from active reactor operator duty due to a temporary physical disability. Mr. Amato ceased performance of reactor operator duties on January 27, 1992 and underwent back surgery on February 4, 1992 to remove a ruptured disc. Expected recovery time is approximately four to six weeks. The severity of Mr. Amato's condition and anticipated recovery time are not considered a concern with respect to his current reactor operator qualification and training.

Mr. Amato is expected to resume active duty pending his successful recovery and a physician's approval. Carolina Power & Light Company will notify the NRC upon Mr. Amato's resumption of active duty.

Please refer any questions regarding this submittal to Mr. R. C. Godley at (919) 457-2412.

Yours very truly,

G. E. Vaughn
