Subject: Byron Generating Station Units 1 and 2
Independent Design Inspection
NRC Inspection Report No. 50-454/83-32

Reference (a): June 11, 1984 letter from Cordell Reed
to R. C. DeYoung.

Dear Mr. DeYoung:

This is to provide a second interim report on the independent design review project which was described in reference (a). The enclosed document provides a status report on the Bechtel review of high and moderate energy line breaks. This report supplements the May interim report provided in reference (a).

Please address further questions regarding this matter to this office.

One signed original and fifteen copies of this letter and the enclosure are provided for NRC review.

Very truly yours,

Cordell Reed
Vice President
