ABSTRACT (Limit to 1400 spaces, i.e., approximately fifteen single-space typewritten lines) (16)

On May 23, 1984, Radioactive Shipment #84-035-S left the Palisades Nuclear Plant, en route to Richland, Washington, for burial at the U.S. Ecology Hanford Reservation. On the twentieth day after shipment, June 12, 1984, having received no acknowledgement of receipt of the waste shipment from the land disposal facility, the Palisades Nuclear Plant began an investigation, per the requirements of 10 CFR 20.311(h)(1).

On June 12, 1984, U.S. Ecology was notified that an acknowledgement of receipt of the waste shipment had not been received. A trace of the shipment was initiated. On the following day, June 13, 1984, a representative from the land disposal facility confirmed that the waste shipment had been received and buried on May 29, 1984; however, the written acknowledgement was not transmitted to the Palisades Nuclear Plant as required.

Subsequently, on June 18, 1984, written acknowledgement for Radioactive Shipment #84-035-S was received, concluding the investigation. The requirements of 10 CFR 20.311(h)(1) and (2) are considered to be fulfilled by submission of this report.
