APRM/REM/TECH SPEC IMPROVEMENTS

Gentlemen:

As discussed with the NRC staff, Georgia Power Company (GPC) hereby withdraws its request that certain proposed Technical Specification pages submitted February 6, 1984, be treated as proprietary. GPC continues to request that the supporting data base and analyses results included with the February submittal remain proprietary.

This change has no effect on the substance of our previous request and does not affect the basis for the changes as described in our 10 CFR 50.92 statements submitted in February 1984.

If there are any questions regarding this submittal, please contact this office.

Very truly yours,

L. T. Gucwa
