Dear Mr. Johnson:

This letter provides the amendment request supplement that Public Service Company (PSC) committed to in Reference (2). The major components of this supplement include setpoints and surveillance requirements associated with the 480V AC essential bus undervoltage protection that were not identified in Reference (1). Affected pages from the initial amendment request (Reference (1)) should be replaced by those provided.

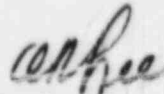

A summary of all the proposed changes is provided in Attachment 1, and the changes themselves are provided in Attachment 2. Attachment 3 contains an evaluation of the significant hazards considerations involved in the proposed changes.

-2-

In accordance with the provisions of 10 CFR 170, we believe that amendment fees should not be required since this application serves only to supplement the submittal in Reference (2) and no additional safety issues have been introduced.

If you have any questions, please contact Mr. Don Warembourg, at (303)785-2224.

Very truly yours,
