Reference: Beaver Valley Power Station, Unit No. 1
Docket No. 50-334, License No. DPR-66
Beaver Valley Power Station Emergency Preparedness Plan

Dear Dr. Murley:

In keeping with the established submission schedule for review of the Station's annual Emergency Preparedness Exercise, Duquesne Light Company is providing the attached Annual Exercise Scenario for the scheduled June 27, 1984 full-scale exercise.

The development of the exercise scenario entailed a coordinated effort between Duquesne Light Company and state government agencies in order to achieve exercise goals which will demonstrate the response capabilities of all the parties involved.

Duquesne Light Company anticipates that there will be minimal modification to the scenario as the exercise preparation work progresses.

In order to keep the exercise efforts on track and to enable Duquesne Light Company to meet any additional requirements, the Duquesne Light Company requests that any comments or requests for modification to the submitted scenario be provided to Duquesne Light Company no later than June 8, 1984. Your cooperation on this matter is greatly appreciated and will help to ensure that the scenario will be one that thoroughly addresses all objectives in a realistic manner.
