Dear Sir:

The NRC was notified of a potentially reportable deficiency in
Reference (A), an Interim Report was transmitted by Reference (B),
and Time Extensions were requested by Reference (C) and (D). At that
time, it was estimated that a Final Report would be available by
September 21, 1984.

Due to the extensive investigation and evaluation required, it is now
expected that this information will be finalized by October 26, 1984, at
which time a complete report will be submitted.

There is no new information or change to the Interim Report at this time.

Very truly yours,
