Comanche Peak Steam Electric Station
Units 1 and 2
Welding Allegations Transmitted by Letter
of April 23, 1984

Dear Mr. Denise:

This will document the May 22, 1983 conversation between Doyle Hunnicutt, NRC Chief, Reactor Project Section A, and David Chapman, TUGCO Manager, Quality Assurance. In that conversation we requested and were granted an extension to the May 23, 1984 deadline for responding to your letter concerning welding practices at Comanche Peak Steam Electric Station.

The agreed upon deadline for the response is now June 8, 1984.

Should you have any questions, please advise.

Very truly yours,

for *DN Chapman*
B.R. Clements
