Re: Catawba Nuclear Station, Units 1 and 2
Docket Nos. 50-413 and 50-414
Process Control Program

Dear Mr. Denton:

In response to your letter dated September 14, 1984 requesting additional information regarding Catawba's Process Control Program (PCP), please be advised that the Station specific procedures have not been finalized. A Catawba specific PCP will not be needed until just prior to performing solidification or a dewatering process as required by Technical Specification 3.11.3. Neither of these processes will be needed to be performed any earlier than March, 1985.

At this time, all of Duke's Nuclear Station's PCP's are being reviewed and revised. The Catawba specific PCP will be finished and a copy provided to you by November 30, 1984.

Very truly yours,

Hal B. Tucker
