Re: Peach Bottom Atomic Power Station, Units 2 & 3
Docket Nos. 50-277 and 50-278

Dear Mr. Denton:

Enclosed for filing with the Commission are three originals and nineteen copies of Philadelphia Electric Company's Second Amendment to its February 11, 1982 Application for Amendment of Facility Operating Licenses DPR-44 and DPR-56. The Application as originally filed and subsequently amended provided for Technical Specifications relating to operability and surveillance requirements for control and instrumentation systems required by NUREG-0737. The Second Amendment further revises the Application to reflect the most recent NRC Staff guidance in this area provided in Generic Letter 83-36.

Very truly yours,

Eugene J. Bradley
