SECRETARY
OF THE
NUCLEAR REGULATORY COMMISSION
BRANCH

APPLICATION FOR ISSUANCE OF SUBPOENA AND SUBPOENA DUCES TECUM

Pursuant to Section 2.720 of the Commission's regulations, Intervenor Three Mile Island Alert ("TMIA") applies to the Atomic Safety and Licensing Board for the issuance of a Subpoena and Subpoena Duces Tecum to William Lowe, formerly a consultant of Licensee, for the purpose of requiring the abovementioned individual to appear and produce documents for a deposition scheduled to commence in this matter on October 19, 1984, at 9:30 a.m. A copy of the proposed Subpoena is attached.

Licensee has proposed Mr. Lowe to testify that he was the first person to recognize the significance of the pressure spike on the late evening of March 29, 1979. Since that time, Licensee has indicated that it intends to call two additional witnesses to testify as to analysis of production of hydrogen which occurred on March 28, 1979, the first day of the Accident, in addition to Mr. Lowe. Therefore TMIA wishes to take Mr. Lowe's deposition to determine the substance of his testimony given the fact that other consultants will testify as to Mr. Dieckamp's state of mind. TMIA requests that a subpoena be issued that Mr. Lowe testify and produce the documents requested

in the subpoena.

WHEREFORE Intervenor TMIA respectfully requests that the Chairman of the Licensing Board, or in his absence, any alternative chairman, issue a Subpoena Duces Tecum in the form attached hereto directing Mr. Lowe to appear for deposition and to produce the documents listed in the subpoena at his October 19, 1984, deposition.

Respectfully submitted,
