PRAIRIE ISLAND NUCLEAR GENERATING PLANT
Docket Nos. 50-282 License Nos. DPR-42
50-306 DPR-60

**Supplement to License Amendment Request Dated July 17, 1995
Radiological Effluent Technical Specifications Conformance
To Standard Technical Specifications and Generic Letter 89-01**

The subject License Amendment Request set forth, in part, to implement the provisions of Generic Letter 89-01, "Implementation of Programmatic Controls for Radiological Effluent Technical specifications in the Administrative Controls Section of the Technical Specifications and the Relocation of Procedural Details of RETS to the Offsite Dose Calculation Manual or to the Process Control Program".

Generic Letter 89-01 stipulates, "A complete and legible copy of the revised ODCM (Offsite Dose Calculation Manual) should be forwarded with the amendment request for NRC use as a reference. The NRC will not concur in or approve the revised ODCM." In accordance with the guidance of Generic Letter 89-01, attached for NRC reference is the revised Prairie Island ODCM. The ODCM is transmitted by separate letter at this time since its revision was not complete in July when the subject License Amendment Request was submitted.

Technical Specification requirements relocated to the Offsite Dose Calculation Manual were prepared in accordance with the Prairie Island Technical Specifications Section 6.5 as amended by the subject license amendment request. This revision to the ODCM constituted a major rewriting of the Manual which

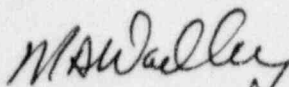

9510230059 951016
PDR ADOCK 05000282
P PDR

ADD 9/11

affected major portions of every page. Therefore, changes to the Manual were NOT sidelined. Instead, sidelining has been used to identify those changes which comprised substantive changes from previous Technical Specification or ODCM requirements.

The information provided by this letter does not modify the subject license amendment request, therefore the Safety Evaluation, Significant Hazards Determination and Environmental Assessment originally presented in the July 17, 1995 submittal continue to bound the proposed license amendment.

If you have any questions related to this information in support of the subject license amendment request, please contact myself or Dale Vincent at 612-388-6758 X4107.
