Unit 1)

Docket 50-400 OL

ASLBP No. 82-468-01
OL

Motions for extensions of time

Wells Eddleman hereby moves the Board to grant extensions of time as follows:

Motion 1: Due to illness I have been unable to write up the questioning areas and list of documents I would ask about, for the subpoenaed witnesses on 41 and 65. This was due to be mailed today (per 24-hour extension granted in conference call last week). Staff has no objection to any of these extensions (confirmed in phone calls with their counsel). Applicants have objected to delay in their trial preparation schedule. As I understand it, having the question areas and documents lists for the Eddleman 41 subpoenaed witnesses who still work for CP&L, in CP&L's hands by the close of business Oct 3; for Geo. Maxwell and those no longer working for CP&L (41), in CP&L's hands by close of business Oct 5; and for Eddleman 65 (all witnesses subpoenaed) to CP&L on Oct. 8. All filings to be mailed to Staff ^{by Board} same day; express mail on Oct. 8.

Motion 2: Due to the unavailability of NC emergency planners still working on the aftermath of Hurricane Diana, Applicants can't get me answers on interrogatories re contention 213-a on time. Their counsel Hollar and I have agreed to extension as follows: One week if response in my hands by October 9 or earlier; to 2d weekend (10 or 11 days) (i.e. until 2d Monday after I get their response) if I get it after 10/9
