SUBJECT: Proposed Technical Specification
Changes - LCO 4.10.7, Table 4.10-7

Dear Mr. Johnson:

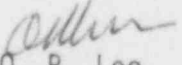

This letter is to propose changes to the Fire Suppression Systems section of the Fort St. Vrain Technical Specifications. The need for the proposed change to LCO 4.10.7 (Fire Hose Stations), Table 4.10-7, is brought about as a result of Public Service Company Change Notice (CN) No. 1674. The CN has renumbered the fire hose stations in a consistent sequence indicating the building, floor level, and location on that level. The hose stations will carry a dual designation until such time as the Technical Specification change request is approved.

Attachment 1 contains the proposed changes. Attachment 2 contains an evaluation of the significant hazards considerations involved in the proposed changes.

In accordance with the provisions of 10 CFR 170, an application fee of \$150.00 is enclosed.

If you have any questions, please contact Mr. Jack Gahm at (303) 785-2224.

Very truly yours,

O. R. Lee
Vice President
Electric Production
