NO/JDH:lms  
Docket Nos. 50-338  
50-339  
License Nos. NPF-4  
NPF-7

Gentlemen:

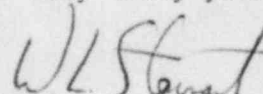

VIRGINIA ELECTRIC AND POWER COMPANY  
NORTH ANNA POWER STATION UNIT NOS. 1 AND 2  
10 CFR 50 APPENDIX R REANALYSIS - PHASE II

In our July 31, 1984 letter (Serial No. 431), we committed to submit the Phase II information for North Anna's Appendix R fire protection reanalysis by October 15, 1984. The Phase II information consists of descriptions of modifications and exemption requests not included in our May 1, 1984 submittal. It also includes any revisions to the information submitted on May 1, 1984, based on subsequent discussions with the NRC staff.

Because of resource limitations caused by the extension of the refueling outages and because of the complexity of certain Appendix R modifications, the North Anna Phase II information will now be submitted no later than October 31, 1984. This change has been discussed with the NRC North Anna Project Manager.

Please contact us if you have any questions regarding this matter.

Very truly yours,

  
W. L. Stewart
