CASE'S PARTIAL ANSWER TO APPLICANTS'  
MOTION FOR SUMMARY DISPOSITION REGARDING  
APPLICANTS' QUALITY ASSURANCE PROGRAM FOR DESIGN OF  
PIPING AND PIPE SUPPORTS FOR COMANCHE PEAK STEAM ELECTRIC STATION

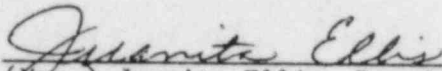

CASE (Citizens Association for Sound Energy), Intervenor herein, hereby files this, its Partial Answer to Applicants' Motion for Summary Disposition Regarding Applicants' Quality Assurance Program for Design of Piping and Pipe Supports for Comanche Peak Steam Electric Station. This Partial Answer is in the form of an Affidavit from CASE Witness Jack Doyle and an Affidavit from CASE Witness Mark Walsh.

CASE not yet completed its review of the boxes of documents which Applicants have supplied on discovery (and a few yet to be supplied, regarding which we are attempting to work out a protective agreement as indicated in our 10/16/84 letter to Applicants' counsel), and we will therefore have to supplement our Answer.

However, Messrs. Doyle and Walsh wanted to go ahead and send this partial answer to the Board and parties. This will put the Staff and Applicants on notice as to part of our response and therefore assist in expediting the proceedings and the responses by the Staff and the Applicants.

We expect to file an additional response by October 30 and possibly another after reviewing the proprietary documents yet to be agreed upon and received.

Respectfully submitted,
