PROTECTIVE COATINGS PRACTICES AT COMANCHE PEAK

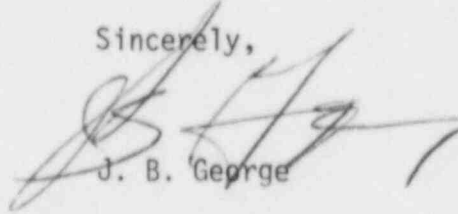

Dear Mr. Ippolito:

We have reviewed the agenda of your directed protective coatings meeting on August 8, 1984 at the CPSES site.

The response to these questions will require an extraordinary effort. We request that we be allowed to respond in writing to the questions no later than August 13, 1984.

Please let me know if this date will be satisfactory.

Sincerely,
