Dear Mr. Denton:

The Referenced letter transmitted the Wolf Creek Technical Specifications "marked up" to indicate changes. Figure 5.1-4, which was transmitted in the Referenced letter, does not correctly reflect the boundary for liquid effluents at Wolf Creek.

Transmitted herewith is a revised Figure 5.1-4 which correctly reflects the boundary for liquid effluents at Wolf Creek. This figure should supersede the previously submitted figure in its entirety.

This information is hereby incorporated into the Wolf Creek Generating Station, Unit No. 1, Operating License Application.

Yours very truly,
