Subject: Vermont Yankee Cycle 17 Operating Report

Enclosed please find one copy of the Vermont Yankee Cycle 17 Operating Report, submitted in accordance with 10CFR50.59(b)(2) and 10CFR50.4. This report describes the facility changes, tests, and experiments, including a summary of the safety evaluation of each, which were conducted during this time period without prior NRC approval and which constituted a change in the facility as described in the Final Safety Analysis Report (FSAR).

In accordance with 10CFR50.59(b)(2), this submittal is being made concurrent with a revision to the Final Safety Analysis Report (FSAR), being submitted under separate cover.

We trust this information is acceptable; however, should you have any questions, please contact this office.

Sincerely,

VERMONT YANKEE NUCLEAR POWER CORPORATION
