DOCKET NOS. 50-266 AND 50-301
RADIOACTIVE WASTE PROCESS CONTROL PROGRAM
POINT BEACH NUCLEAR PLANT, UNITS 1 AND 2

Wisconsin Electric Power Company, licensee for Point Beach Nuclear Plant, Units 1 and 2, hereby files Revision 1 of the Point Beach Nuclear Plant Radioactive Waste Process Control Program for NRC review. The Process Control Program had previously been submitted as part of a modification to our Radiological Effluent Technical Specifications, dated October 7, 1983.

The enclosed Process Control Program is a list of Point Beach and vendor procedures which govern the processing and packaging of solid radioactive waste. The procedures have been developed to assure compliance with state and federal regulations relative to waste form, classification, transportation and disposal.

Please contact us if you have any questions concerning this submittal.

Very truly yours,

President

R. W. Britt
