APPLICANTS' TRANSMITTAL OF INFORMATION RELATING  
TO THEIR MOTION FOR WITHDRAWAL OF APPLICATION

On March 20, 1984, Applicants, The Cincinnati Gas & Electric Company, et al., filed their Motion for Withdrawal of Application. In that pleading it was stated that "[a]ll fuel will be removed from the site not later than August 31, 1984" and that "[t]he existing nuclear steam supply system will be modified so that it cannot operate as a 'utilization facility' by isolating the system inside the reactor building by severing and welding caps on two main feedwater lines and the four main steam leads. In addition, control rod drive mechanisms will be removed from the reactor vessel." These actions are now complete.

Since the facility is now disabled and the fuel has been removed from the site,<sup>\*/</sup> we now renew our request that

the Atomic Safety and Licensing Board enter an order authorizing withdrawal of the application.

Respectfully submitted,

CONNER & WETTERHAHN, P.C.

Troy B. Conner, Jr.  
Mark J. Wetterhahn  
Robert M. Rader

Counsel for the Applicants
