SUBJECT: Documentation of
Disciplinary Actions

Dear Mr. Collins:

At the June 25, 1984 meeting, one of the matters discussed was providing the NRC with documentation regarding disciplinary action that has been taken by Public Service Company with respect to its employees at Fort St. Vrain. Our proposal, and the supporting rationale, are set forth below.

We do not question the NRC's valid interest in obtaining necessary information relevant to execution of its duties, and Public Service Company is willing to cooperate with the NRC for that purpose. As for documentation of disciplinary action taken with respect to specific employees, however, Public Service Company is concerned about the particular employee's right of privacy and the lack of protection from the release of information to the general public under the provisions of the Freedom of Information Act.

In order to strike an appropriate balance between these competing interests, we suggest the following procedure: When information regarding disciplinary action has been requested and a particular employee is involved, Public Service Company will submit to the Senior Resident Inspector the information requested with the name of the individual purged from the document.

We believe the above procedure accomplishes the goals of providing you with necessary information when requested while also protecting the particular individual from unnecessary invasion of privacy. If

you are in agreement, I would appreciate your written concurrence. If you feel another approach is more feasible, please feel free to direct any questions to myself or to L.M. McBride at (303) 785-2223.

Very truly yours,

O. R. Lee, Vice President
Electric Production
