Docket No. 50-397

June 21, 1995
GO2-95-114

Mr. L. J. Callan, Regional Administrator
U.S. Nuclear Regulatory Commission, Region IV
611 Ryan Plaza Drive, Suite 400
Arlington, TX 76011-8064

Dear Mr. Callan:

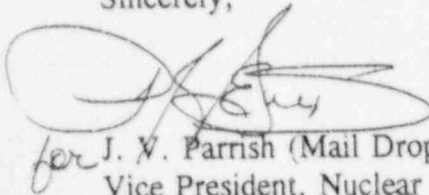

Subject: **WNP-2, OPERATING LICENSE NPF-21
REGION IV RADIATION PROTECTION MEETING**

The Supply System is coordinating a Region IV Radiation Protection meeting and would like to invite NRC staff participation. The meeting is scheduled for August 24 and 25, 1995 in Arlington, Texas. It is anticipated that one of the two days would be devoted to topics desired by both the staff and the participating utilities. We would like to include on the agenda those topics that may be of current heightened interest to the staff. Headquarters and Region based personnel participation would be welcomed as personnel availability allows.

The exact times and location of the meeting will be forwarded to you when finalized. The agenda for the day of staff participation is being coordinated by W. H. Barley, Supply System Corporate Radiological Health Officer. We anticipate that this forum will prove beneficial to both the staff and the Region IV utilities and will provide the basis for future professional exchanges.

Should you have any questions or desire additional information regarding this matter, please call me or Mr. Barley at (509) 377-2386, FAX (509) 377-8637.

Sincerely,

for J. V. Parrish (Mail Drop 1023)
Vice President, Nuclear Operations
