Re: Amendment Request to License No. 47-05322-02

Medical Staff

Gregory S. Merrick, M.D.
Jondavid Pollock, M.D., Ph.D.

Dear US NRC:

This letter is in response to your email dated 2 Apr 2020 requesting additional information regarding our license amendment request.

Medical Physics

Wayne M. Butler, Ph.D.
Amber L. Hines, M.S., CMD
Jonathan H. Lief, Ph.D.
Robert W. Galbreath, Ph.D.
Brian S. Kurko, M.S., CMD
Richard L. Anderson, RTT, CMD
Ernest G. Butler, M.S., CMD
Abbey Bennett, B.S.
Ryan M. Fiano, M.P.H.

1. Although the formal training for Mr. Kurko and Mr. Butler was not recent, I thought the application should acknowledge and document their formal training. Since that information is unnecessary and counterproductive, I would like to use the pathway of 10 CFR 35.50(c) to support their applications as ARSOs.
2. Wheeling Hospital's RSO, Wayne Butler, PhD, maintains responsibility for the radiation safety program and may delegate duties, but not the responsibility, to Mr. Kurko and Mr. Butler.
3. Please authorize Mr. Kurko and Mr. Butler for calibrations with the Cesium-137 sources listed in item 6. F. of NRC License No. 47-05322-02. These sources provide a reference value for ion chambers and well chambers before and after their round trip to a calibration laboratory. The reference measurement does not calibrate the device but simply ensures that the device was not damaged in transit. A summary of the training for Brian Kurko and Ernest Butler is below:

Administrative Coordinator

Michele R. Braley

Physical Rehabilitation

John DeBlasis, M.S., PT, ATC

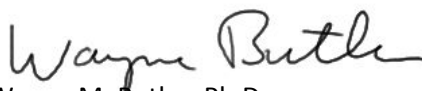

SELECT Research Nurse

Jayne Nardo, R.N.

Description of Training	Training Provided by	Dates of Training
Use of radiation from Cs-137 tubes to check ion chamber response	Wayne Butler, PhD	Jan, 2019 — Feb, 2020

4. The email address of our administrator, David Lucey, is JDLucey@wheelinghospital.org

Best regards,

Wayne M. Butler, Ph.D.
