Dear Mr. Denton:

In accordance with Peach Bottom Environmental Tech Spec. Appendix B, item 7.4.2.B.2. "Reporting of Changes to the Plant or Permits," the NRC should be informed of the following changes in the subject NPDES permit. Attached are copies of correspondence from the Pennsylvania Department of Environmental Resources dated June 3, 1983, and April 26, 1983, which changes the December temperature confidence limit in special condition 9B of the subject permit from 1.5° F to 4.0° F.

Sincerely yours,

*Helen T. Kautzger*

Dear Mr. Allen:

We have reviewed your February 15, 1983 letter requesting a change in the confidence limit for December from  $4^{\circ}\text{F}$  to  $1.5^{\circ}\text{F}$ . We believe this change is justified and would be more consistent with other month's confidence limits. We agree to make this change; however, we suggest withholding any changes to the NPDES permit until it can be renewed.

Sincerely,

Dear Mr. Allen:

Thank you for your recent telephone call regarding a typographical error in our April 26, 1983 letter. The corrected confidence limit for December should be from 1.5° F to 4.0° F. We will be making that change to the NPDES Permit during the permit renewal process.

Sincerely,

Leon M. Oberdick
