(Steam Generator Repair)

Dear Administrative Judges:

The Commonwealth of Pennsylvania will not file proposed findings of fact or conclusions of law in this proceeding. The Commonwealth, however, reserves its right to participate on appeal pursuant to 10 C.F.R. §2.715(c).

The Commonwealth notes the NRC Staff has committed in the record of this proceeding to resolve any issue related to missing or loose plugs in the steam generator, and not to approve restart of TMI-1 until such issues are resolved. The Commonwealth's nuclear engineering staff has commented on a proposed resolution of the problems identified by the NRC Staff.

The Commonwealth notes that the proposed determination that the steam generator tube repair program involves "no significant hazards consideration" is pending before the Commission.

Very truly yours,
