Quality Assurance Manual Operations,  
Revision 6 (Copy Nos. 1-6)

Gentlemen:

After distribution of the subject manual, it was identified that the manual numbers were left off the coversheets. Attached are corrected coversheets showing the controlled manual numbers that have been assigned to you. Please insert these coversheets in the front of your manuals and remove the existing coversheets.

Your cooperation in this matter is appreciated. I hope that this omission has not caused you any inconveniences.

Very truly yours,

John R. Marshall
