Mr. Robert D. Martin, Regional Administrator  
U.S. Nuclear Regulatory Commission - Region IV  
611 Ryan Plaza Drive, Suite 400  
Arlington, TX 76011

Gentlemen:

River Bend Station - Unit 1  
Docket No. 50-458

Pursuant 10CFR50.54(p), please find enclosed two copies (Nos. 16 and 17) of Revision 14A to the River Bend Station (RBS) Physical Security Plan (PSP). In response to Mr. A. Bill Beach's letter of February 6, 1992, additional changes have been made to the PSP to reflect current activities of the RBS security program. An explanation of the significant changes is enclosed to facilitate NRC review. The changes, indicated in the text by side bars, have been determined not to decrease the effectiveness of the security program. Revision 14A represents a page change out to Revision 14. As such, the new pages should be inserted in each respective controlled copy of the plan and the superseded pages removed and destroyed.

The PSP is considered "Safeguards Information" pursuant 10CFR73.21 and should be handled accordingly. Should you have any questions, please contact J. H. McQuirter at (504) 381-4150.
