Subject: Cycle 10 Core Operating Limits Report, Revision 1

Dear Sir:

Florida Power Corporation (FPC) hereby submits the Crystal River Unit 3 (CR-3) Cycle 10 Core Operating Limits Report (COLR), Revision 1. The revision changes the 2 ft. elevation kw/ft limits. These were changed as part of the resolution of the modelling errors addressed in LER 95-003-00. These changes did not require any changes to existing operational limits due to conservatism in the limits. The COLR and supplements thereto are required to be submitted to the NRC upon issuance in accordance with CR-3 ITS Sections 5.6.2.18.

Sincerely,

P. M. Beard, Jr.
