Report - Auxiliary Feedwater Turbine Control
Circuit

Dear Mr. Hunter:

This letter provides supplemental information to correct a statement concerning the corrective action for the Auxiliary Feedwater Turbine control circuitry. The Reference stated that a Field Rework Plan had been issued to modify the Wolf Creek circuitry to be compatible with the vendor supplied circuitry when in fact the Field Rework Plan altered the vendor supplied circuitry to be compatible with the Wolf Creek circuitry.

If you have any questions concerning this matter, please contact me or Mr. Otto Maynard of my staff.

Yours very truly,

Glenn L Koester
