Re: Proposed Policy Statement;
Conversion to the Metric System
57 FR 4891 (February 10, 1992)
Request for Comments

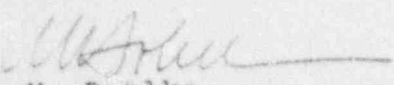

Dear Mr. Chilk:

Florida Power and Light Company (FPL) is the licensed operator of two nuclear power plant units in Dade County, Florida and two nuclear power plant units in St. Lucie County, Florida.

FPL has reviewed the proposed policy statement and concurs with its issuance because it provides flexibility not available through rulemaking, it avoids an abrupt conversion to metric units, and it allows licensees to schedule conversion(s) when there would be neither economic disadvantage nor safety detriment.

FPL appreciates the opportunity to submit these comments.

Very truly yours,

W. H. Bohlke
Vice President
Nuclear Engineering and Licensing
