Judge Ivan Smith -

As an area resident,

OFFICE OF SENIOR
POCKETING & SE
BRANCH

I am deeply concerned
and strongly opposed to
the licensing of the Byron
nuclear plant.

1) Byron is not built right.
NRC was not totally honest
in their estimation of the plant's
problems. I urge a review of
NRC outstanding items.

2) The board should listen
to the concerns of workers from
the plant who wish to testify.
Any employee courageous enough
to testify deserves a fair hearing,
especially if the adequacy of the
NRC investigation is in question.

3) Com-Ed has a real financial
problem. We have had five rate
hikes in the past 7 years from
Com-Ed.

4) Byron plant is NOT NEEDED.
It is being put on line for the
convenience and profit of
Com-Ed.

5) Com-Ed's emergency plan
for evacuation is NOT
ADEQUATE.

Sincerely -
Don Schrader
