50-455 OL

Your Honor,

I would like to express my concern about the licensing of the Byron Nuclear Plant. It seems to me, though a layman, that there are some experts who are saying that the Byron plant is not built right. Would you please send me a review of the N.R.C.'s outstanding items?

As a citizen I am against the licensing of the nuclear plant when the "6000 discrepancies" were labeled "non-significant".

Sincerely,

Jeffery E. Grumley
Pastor
