Re: In the Matter of Pacific Gas and Electric Company
(Diablo Canyon Nuclear Power Plant, Units 1
and 2), Nos. 50-2750L, 50-3230L

Dear Chairman Palladino and Members of the Commission:

By letter dated August 20, 1984 (DCL-84-287) (attached hereto), Pacific Gas and Electric Company ("PGandE") has requested that Facility Operating License DPR-76 for the Diablo Canyon Nuclear Power Plant, Unit 1, be amended to extend its term yet again. As you know, the Joint Intervenors have previously requested hearings pursuant to § 189(a) of the Atomic Energy Act, to be held prior to Commission action on similar amendment applications by PGandE, which requests have been denied by the Commission. Those denials are currently on appeal to the U.S. Court of Appeals for the District of Columbia Circuit.

For the reasons previously articulated in support of their requests for hearings on PGandE's prior amendment applications, the Joint Intervenors hereby oppose PGandE's License Amendment Request No. 84-09 and request a hearing pursuant to § 189(a) of the Atomic Energy Act, to be held prior to the Commission's decision on the application. To that end, the Joint Intervenors incorporate herein by reference their

License Amendment Request 84-09
Extension of Term of Facility License

Dear Mr. Denton:

Enclosed are three (3) signed and thirty-seven (37) conformed copies of an application for an amendment to Facility Operating License No. DPR-76.

In Amendment No. 9 to the license the Commission extended the termination date of the license to September 22, 1984. A further extension of the license now appears to be necessary, and is the subject of the enclosed license amendment request.

Also enclosed is our check in the amount of \$150.00 to cover the filing fee.

Kindly acknowledge receipt of this material on the enclosed copy of this letter and return it in the enclosed addressed envelope.

Sincerely,
