Dear Mr. Eakins:

Per my conversation with Mr. David Ferguson on Monday morning, please find enclosed two(2) copies of the current Emergency Response Plan for the University of Florida Training Reactor(UFTR). These two copies include everything through Revision 6 dated December, 1990. Please discard all other copies you may have. In the past we have supplied updates to other state contacts; in the future we will supply you with two copies of all revisions along with directions for maintaining the UFTF Emergency Plan in a current status.

At this time Revision 7 has been submitted to the NRC and is under consideration for a number of minor changes. When approved, I will forward two copies to you for insertion in the Plan.

I have also enclosed two(2) copies of the three(3) call lists currently posted at our reactor facility. Please note that the proper state emergency contact numbers are listed.

If you have any questions, please let me know.

Thank you for your consideration.

Sincerely,

William G. Vernetson  
Director of Nuclear Facilities
