In the Matter of	:	Docket Nos. 50-352
PHILADELPHIA ELECTRIC COMPANY	:	50-353

AMENDMENT NO. 69

TO

LICENSE APPLICATION OF
PHILADELPHIA ELECTRIC COMPANY

Philadelphia Electric Company hereby amends its Application in the above entitled proceedings: (a) by making the deletions, substitutions and additions to the Final Safety Analysis Report shown on the document entitled "LIMERICK GENERATING STATION, UNITS 1 & 2, FINAL SAFETY ANALYSIS REPORT, REVISION 35 PAGE CHANGES" dated August, 1984, which is filed herewith and made a part hereof; (b) by deleting therefrom the Physical Security Plan for Limerick Generating Station and substituting therefor a revised Plan dated August, 1984, which is filed herewith and made a part hereof; and (c) by making the deletions, substitutions and additions to The Environmental Qualification Report for Electrical Equipment shown on Revision 2 to the Report dated August, 1984, which is filed herewith and made a part hereof; and (d) by making the deletions, substitutions and additions to the Emergency Plan shown on Revision 10 to the Plan, dated August, 1984, which is filed herewith and made a part hereof.

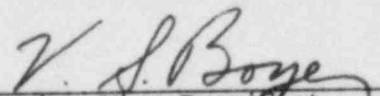

Pursuant to Sections 2.790 and 73.21 of the Commission's regulations, it is hereby requested that the revised Physical Security Plan dated August, 1984, be withheld from public disclosure. In support of this request for withholding from public disclosure, Applicant states that the Revised Plan which is sought to be withheld from public disclosure contain details relating to the physical security plans for Limerick Generating Station. The information set forth in the Plan has been treated as confidential and proprietary information and has been withheld from public disclosure by Applicant in accordance with Applicant's practice of treating all information dealing with the details of security plans and procedures and information which could be used to compromise the security and safety of its facilities as confidential and proprietary information.

The Revised Plan should be considered by the Nuclear Regulatory Commission as confidential and proprietary information and be withheld from public disclosure on the grounds that it contains Safeguards Information, it contains details relating to the physical security plans and procedures of a licensed facility, it contains detailed information which could be used to compromise the safety and security of the facility, such disclosure is not required in the public interest, and such disclosure would adversely affect the interests of Applicant.

Respectfully submitted,

PHILADELPHIA ELECTRIC COMPANY

By:

Senior Vice President
