Subject: Crystal River Unit 3
Docket No. 50-302
Operating License No. DPR-72
Technical Specification Change Request No. 124

Dear Sir:

Enclosed are three (3) originals and forty (40) copies of Technical Specification Change Request No. 124 requesting amendment to Appendix A of Operating License No. DPR-72. As part of this request, proposed replacement pages for Appendix A are enclosed.

During Refuel V, Florida Power Corporation will be adding a new remote shutdown system to Crystal River Unit 3 (CR-3). The staff has reviewed the safe shutdown capability of CR-3 and has found it to be in accordance with Sections III.G and III.L of Appendix R to 10 CFR 50 (January 6, 1983). This submittal requests an amendment to the Technical Specifications to replace the old remote shutdown system with the new. Because this equipment will not be operational until startup for Cycle 6, implementation of this specification should occur upon startup.
