AMENDMENTS TO JANUARY-JUNE 1983  
SEMIANNUAL ENVIRONMENTAL AND EFFLUENT REPORT

Dear Mr. O'Reilly:

Enclosed are amended Tables 1A, 1B, 1C, and Table 3, reported in the Semiannual Environmental and Effluent Report for Brunswick Steam Electric Plant, covering the period from January 1, 1983, to June 30, 1983.

Tables 1A, 1B, and 1C incorrectly reported the H-3, Sr-89, and Sr-90 gaseous effluent data due to an error in the composite dates of the computer files. The dates in question for this report have been changed and the revised effluent data is included on the amended tables.

Table 3 of this report erroneously reports 121 shipments to Chem-Nuclear Systems, Inc. The correct value of 131 was discovered during an internal audit. Upon investigating, it was determined that the mistake was due to incorrectly counting the number of shipments.

Please replace the existing tables with the amended table provided.

Very truly yours,

C. R. Dietz, General Manager
