REGION V 18E

Mr. Phillip J. Morrill, Project Manager
U. S. Nuclear Regulatory Agency, Region V
1450 Maria Lane, Suite 210
Walnut Creek, California 94596

PROGRESS REPORT, JUNE 1984
TECHNICAL ASSISTANCE FOR INSPECTION OF DIABLO CANYON DESIGN VERIFICATION
PROGRAM, FIN B8552 (UNIT 1) AND FIN A0753 (UNIT 2).

1. Project Description

As a consequence of an Independent Design Verification Program, many modifications and additions to the piping and electrical raceway support systems and building structural steel are being implemented at the Diablo Canyon Nuclear Power Plant. The LLNL is assisting the NRC Region V office in assessing the adequacy of this work.

2. Progress - June 1984

Inspections continued in Unit 2 covering 63 pipe supports, 2 HVAC supports, 4 electrical raceway supports and 4 structural connections. Minor variations were found on 11 items that will require follow-up. Details are provided in Attachment 1.

3. Funding

The detailed report of expenditures for this period is provided in Attachments 2 & 3.

4. Personnel, Subcontracts, and Consultants

This work is being conducted with assistance from the Energy Measurements Group of EG&G in San Ramon, California. Mr. Charles Simkins of EG&G has been recruited temporarily to supplement the inspection staff and accommodate an expanding LLNL participation in Region V inspection programs. Mark Eli continued to provide assistance on the program of SONGS in this report period with Bob White and Jim Selan.

5. Meetings/Travel

A meeting was held with Phil Morrill and other Region V personnel on June 4, 1984 in Walnut Creek to resolve technical issues related to a special tube steel inspection conducted in April, 1984.

PDR ADDCK 05000275
Q PDR

6. Concerns

None

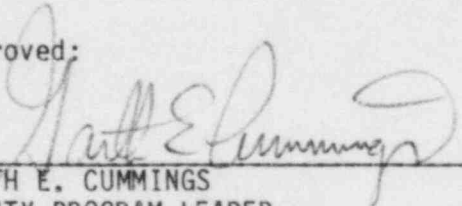

7. Plans

Inspections are to continue in Unit 2.

WALLACE O. WADE
PROJECT MANAGER
EG&G MECHANICAL ENGINEERING DEPARTMENT
