Office of Nuclear Reactor Regulation
Attn: John F. Stolz, Chief
Operating Reactors Branch No. 4
U. S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Stolz:

Three Mile Island Nuclear Station Unit I, (TMI-1)
Operating License No. DPR-50
Docket No. 50-289
Minor Changes to Technical Specification Change Request
(TSCR) 105, Rev. 1 - Snubbers

As a result of discussions with the NRC staff subsequent to our submittal of Technical Specification Change Request (TSCR) 105, Rev. 1 of February 17, 1984 dealing with shock suppressors (snubbers), certain editorial changes or clarifications were indicated to be needed in Section 4.17. These changes are reflected in the revised pages which are attached.

Since these changes are either editorial clarifications or minor administrative changes, the safety evaluation provided with TSCR 105, Rev. 1 is not affected. Please insert the revised pages (4-60, 4-61, 4-64, and 4-66) into your copy of TSCR 105, Rev. 1.

Sincerely,

H. D. Hukill,
Director, TMI-1
