Subject: Arkansas Nuclear One - Unit 1  
Docket No. 50-313  
License No. DPR-51  
Extension to the Submittal Date for the  
Inservice Inspection Outage Summary Report

Gentlemen:

Section 4, "Surveillance Requirements", of the Arkansas Nuclear One, Unit 1 (ANO-1) Technical Specifications requires, in part, that Inservice Inspection (ISI) of ASME Code Class 1, 2, and 3 components shall be performed in accordance with Section XI of the ASME Boiler and Pressure Vessel and applicable addenda as required by 10CFR50, Section 50.55a(g).

Article IWA-6230, Section XI of the ASME Code requires the Owner to submit an ISI summary report. This report is due within 90 days of the completion of the ISIs conducted during a refueling outage. ANO-1 concluded its tenth refueling outage (1R10) on May 9, 1992, therefore, the Outage Summary Report is due to be submitted on August 7, 1992.

Due to an unexpected heavy workload following 1R10, Entergy Operations requests a 30-day extension of the ANO-1 submittal date. This request has been discussed with the ANO-1 NRR Project Manager. The workload responsible for this delay includes the following activities:

- Completing and filing a revision to the Second 10-Year Interval ISI Program Plan for ANO-2. This revision included all of the augmented programs and was a general reformatting of the Program Plan. This revision was submitted to the NRC on July 31, 1992 (2CAN079211), as previously committed.
- Completing and filing Code Case N-481 evaluations with the NRC. Code Case N-481 allowed ANO-1 to substitute engineering evaluations and visual examinations for ANO-committed radiography of the reactor coolant pump casing welds. These evaluations were submitted to the NRC on June 5, 1992 (1CAN069201).

PDR ADOCK 05000313  
Q PDR

AC47 1/0

- Preparing for the upcoming ANO-2 refueling outage that is scheduled to begin on September 4, 1992. This activity involves such items as calibration block design, determining the scope and schedule of the ISIs for the outage.

Should you have any questions regarding this issue, please contact me.

Very truly yours,

James J. Fisicaro  
Director, Licensing
