SUBJECT: Chloride Report

- REFERENCES: 1) P-85036, Lee to Johnson,  
dated January 31, 1985
- 2) P-85030, Lee to Johnson,  
dated January 28, 1985

Dear Mr. Johnson:

In Reference 1 we indicated that we would be forwarding an additional report which would address the effects of chloride on major components in the primary circuit. The report has been delayed somewhat. It is presently undergoing final review by PSC as well as final review by GA.

We are also updating the report "An Investigation into the Sources of Chloride in the Fort St. Vrain Primary Circuit". It is anticipated that final reviews will be completed on both of these reports to permit a March 18, 1985 submittal.

With the many activities in progress the delay experienced was unavoidable.

If you have any questions, please contact Mr. M. H. Holmes at (303) 571-8409.

Very truly yours,

*Don W. Warembourg*
