Dear Sir:

In the Matter of) Docket Nos. 50-327
Tennessee Valley Authority) 50-328

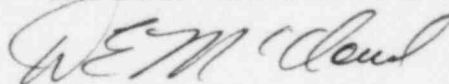

By the June 13, 1984 letter to E. Adensam from L. M. Mills, TVA submitted a request, pursuant to 10 CFR 50.90, to amend the operating licenses for our Sequoyah Nuclear Plant to incorporate the Power Block Concept (PBC) into the Physical Security Plan (PSP). Revised pages to clarify TVA's plans were submitted to NRC on October 2 and November 1, 1984. As a result of a meeting with C. Gaskin and Carl Stahle on March 5, 1985, additional revisions to provide further clarification of the proposed license amendment were provided to the NRC on March 11, 1985. As a result of additional conversations with NRC, enclosed are five copies (Nos. 6-10) of a revision to the proposed PSP.

The enclosed information contains physical security information that is exempt from disclosure in accordance with 10 CFR 73.21. We, therefore, request that the enclosed not be placed in the Public Document Room.

If you have any questions concerning this matter, please get in touch with Jerry Wills at FTS 858-2683.

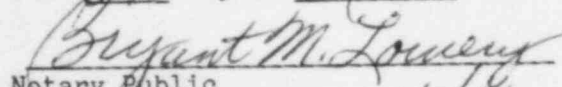

Very truly yours,

TENNESSEE VALLEY AUTHORITY
