Dear Mr. Youngblood:

Reference: Fermi 2
NRC Docket No. 50-341

Subject: Security Plan - Amendment 6

In accordance with 10CFR50.54(p) attached are six copies of Amendment 6 (i.e., pages 4-6 and 4-7) of the Fermi 2 Physical Security Plan. The revision reflects a modified method for the control of manholes which could potentially lend uncontrolled access to the protected area. This revision does not decrease the safeguards effectiveness of the plan. It has been discussed previously with Mr. R. Manili of the NRC, NMSS staff.

Sincerely,
