Re: Nine Mile Point Unit 2
Docket No. 50-410

Dear Mr. Starostecki:

The final report in accordance with 10CFR50.55(e) concerning the Magnetrol level switches will be submitted to the Nuclear Regulatory Commission by May 20, 1985, instead of February 4, 1985. This extension was confirmed in a telecon between Mr. Gary Griffith (Nine Mile Point Unit #2 Nuclear Licensing) and Mr. W. Lazarus of your staff on January 30, 1985. The extension is needed for General Electric to complete their analysis.

Very truly yours,

C. V. Mangan
