SERVED DEC 5 1984

DOCKETED
USNRC

Sept 23, 1984

DEAR JUDGE BRENNER:

'84 DEC -5 AM 12:26

My wife, myself, and our two year old son live from the
Limerick Nuclear Power Plant. OFFICE OF SECRETARY
DOCKETING & SERVICE
BRANCH

We live with the day to day fear that if enough people turn their backs, this plant will be activated.

We are certain that if the Limerick plant does go on line, it will leave destruction in it's wake; either quickly, through a nuclear accident like TMI or slowly, through mismanagement of nuclear waste and radiation leakage. There is no doubt that electric rates will skyrocket, businesses will close down and jobs will be lost.

Nothing good will come from Limerick. We do not want it, and I have yet to meet anyone in the five county area of Philadelphia who does.

There is no workable evacuation plan and there never will be. In case of nuclear disaster it will be every man for himself. There will be chaos and death!

I urge you to do everything in your power to kill the Limerick nuclear power plant before it kills us. Thank you!

Sincerely,

Jonathan L. Holskin
Jonathan L. Holskin D.D.S.

Cathy L. Holskin
