Washington, D.C. 20555

Dear Sirs:

This letter transmits a change in Revision 4 of our Physical Security Plan (PSP) provided to you in our August 27, 1993 transmittal. Attachment A of the August 27, 1993 letter described six changes made to the PSP under 10CFR50.54p. It has been brought to our attention that change 6 to Section 6.2, "Response Procedures" was inappropriate. In particular, the change removed the requirement for the facility to maintain response procedures for dealing with theft of SNM. Section 6.2 is hereby reissued with the requirement for maintaining response procedures for dealing with theft of SNM.

For your convenience, page 28 of the PSP which reflect the change is attached and should replace the page 28 now in your copy of Revision 4 of the UMRR PSP.

Sincerely,

David W. Freeman
Reactor Manager

DWF/lp

Copy to: Dr. Albert E. Bolon, Reactor Director

Signed before me this 8th day of February, 1996.
