Re: Long Island Lighting Co. (Shoreham
Nuclear Power Plant); Docket No.
50-322-OL-4 (Security Remand)

Dear Members of the Board:

Enclosed you will find security contentions jointly proffered by the State of New York and Suffolk County and a Request for Clarification of matters in the Board's March 22 Memorandum and Order. The contentions contain safeguards information and thus are being restricted in their distribution. The Request for Clarification is being sent to the entire service list.

A word of explanation is in order concerning the enclosed contentions. So much has happened since the prior contentions were submitted on August 28, 1984 -- chiefly, amendments to LILCO's security plan, LILCO's March 15 submittal pertaining to additional security measures, ALAB-800, and the Board's March 22 Memorandum and Order -- that the State and County decided that instead of resubmitting the prior contentions, plus adding new ones, it was best to submit revised contentions that supercede the August 28 submission.

The four contentions submitted today necessarily overlap in some respects and we have cross-referenced in instances to avoid repetition. Generally, however, the four contentions cover the following points:

8504040284 850401
PDR ADDCK 05000322
G PDR

Page 2

- Contention 1. Whether LILCO complies with 10 CFR
§ 73.55.
- Contention 2. Safeguards risks of Shoreham low power
operation using the alternate AC power
system. (Under the March 22 Order, the
safeguards risks bear on Section 73.55
compliance, as well as on exemption
matters. See Order at page 10).
- Contention 3. Exemption matters.
- Contention 4. Offsite power matters.

Sincerely yours,

Lawrence Coe Lanpher
