Licensing Branch #2  
Division of Licensing  
U.S. Nuclear Regulatory Commission  
Washington, DC 20555

Dear Mr. Schwencer:

Please find enclosed four sets of updated pages for the Limerick and Union Township Radiological Emergency Response Plans for the Limerick Generating Station. These pages contain the staffing assignments for the Emergency Operation Centers of the two townships.

We request that the NRC staff supplement its memorandum of December 26, 1984 (E. L. Jordan to R. W. Krimm) with a request to FEMA to review the updated pages which are being transmitted herewith. Additional copies are being sent under separate cover to Mr. James Asher, FEMA Region III.

If you have any further questions or if we may be of additional assistance, please contact us.

Very truly yours,

*V. S. Boyer*
